

**Empowering the Digital Future
with Innovative IT Solutions**

About Us

APRK Information Technology Co. LLC is a leading provider of comprehensive Information and Communication Technology (ICT) services. We specialize in delivering advanced solutions across computer systems, software development, cybersecurity, cloud infrastructure, and digital media services. Our mission is to enable businesses to scale securely, efficiently, and intelligently in today's digital-first world.

We offer a full spectrum of ICT capabilities, from system design and integration to risk assessment, infrastructure deployment, and ongoing support—tailored to the needs of enterprises across sectors.

Our Vision

To be the region's most trusted and innovative IT solutions provider—shaping secure, scalable, and intelligent digital ecosystems.

Our Mission

To deliver world-class technology services that foster digital transformation, mitigate cyber risks, and create sustainable growth for our clients.

Our Core Services

1. Computer Systems & Communication Equipment

- Supply and integration of servers, workstations, and computing hardware
- Installation and configuration of communication devices and network infrastructure
- Maintenance and lifecycle management of IT assets

2. IT Infrastructure & Network Services

- Network design, deployment, and optimization
- Structured cabling (fiber and copper), LAN/WAN, wireless solutions
- Hardware provisioning, maintenance, and remote support

3. Information Technology Network Services

- End-to-end network planning, installation, and performance management
- Network security and traffic monitoring
- VoIP, VPN, SD-WAN, and unified communications setup

4. Software Development & Web Design

- Custom software and enterprise application development
- Responsive web design and full-stack development
- User experience (UX) and user interface (UI) optimization

5. Social Media Application Development & Management

- Cross-platform mobile and web application development for social engagement
- Social media integration, analytics, and user community management
- Branding, content strategy, and social media optimization (SMO)

6. Computer Systems Housing & Hosting Services

- High-availability hosting environments for mission-critical systems
- Virtualization and containerization services (VMware, Docker, etc.)
- Data center rack space, connectivity, and managed hosting solutions

7. Cloud Services & Data Centers

- Cloud consulting and infrastructure (IaaS, PaaS, SaaS) solutions
- Hybrid and multi-cloud migration and orchestration
- 24/7 monitoring, backup, and disaster recovery services

8. Data Center & Colocation Services

- Secure colocation facilities with redundant power, cooling, and connectivity
- Remote hands and eyes services
- SLA-backed uptime and compliance with Tier III/ Tier IV standards

9. Cybersecurity Architecture & Risk Management

- Cybersecurity framework design and deployment
- Threat modeling, penetration testing, and vulnerability assessments
- Regulatory compliance (ISO 27001, NIST, GDPR) and incident response planning

10. Cyber Risk Auditing, Reviewing & Testing

- Cybersecurity audits, gap analysis, and control evaluation
- Risk quantification and prioritization reports
- Real-time threat detection and breach simulation (red teaming & blue teaming)

Industries We Serve

- Government & Public Sector
- Financial Services
- Healthcare & Pharmaceuticals
- Education & Research
- Retail & E-Commerce
- Energy & Utilities

Our Strategic Advantages

- Certified professionals and industry experts
- Vendor-agnostic technology strategy
- Commitment to confidentiality, integrity, and data security
- Fully customized solutions aligned to your business goals
- Scalable, cost-effective delivery model
