About ICT & Cyber Technology L.L.C

ICT & Cyber Technology L.L.C is a Dubai-based, government-licensed System Integrator and Managed Security Provider, specializing in transforming residential villas, apartments, and commercial properties into intelligent, secure, and energy-efficient spaces. With a team of certified engineers and a commitment to excellence, we deliver end-to-end smart home automation, enterprise IT infrastructure, cybersecurity, and CCTV surveillance solutions — all designed around your lifestyle and built to last.

From concept to commissioning, we handle every stage of your project: site survey, system design, installation, testing, and ongoing 24/7 remote support. Our solutions are fully compliant with UAE regulations and approved by SIRA, EMAAR, NAKHEEL, and Trakhees.

FREE Site Survey & Quotation

- Our certified engineers visit your property at no charge, assess your exact requirements, and prepare a detailed, transparent quotation — with no obligation to proceed.
- Whether you are fitting out a new villa, upgrading an existing home, or equipping a commercial space, our site survey ensures every solution is tailored precisely to your needs.

Key Smart Home Features

Our smart home packages are modular and scalable — start with a single room and expand to your entire property, all managed from one intuitive app.

Smart Lighting & Climate Control

Create personalized lighting scenes for every mood and time of day. Intelligent thermostats and AI-driven HVAC scheduling reduce your electricity bills by up to 40% while keeping every room at your ideal temperature — automatically.

Security & Surveillance

HD and 4K CCTV cameras with night vision, smart door locks, motion-triggered alerts, and real-time mobile notifications keep your home and loved ones fully protected around the clock. SIRA-compliant installations available.

Centralized Smart Control

Manage every device in your home from a single mobile app or voice command. Compatible with Amazon Alexa, Google Home, and Apple HomeKit, our systems let you control lights, locks, cameras, climate, and entertainment — from anywhere in the world.

Energy & Power Management

Monitor your entire property's power consumption in real time. Smart plugs, automated appliance schedules, and solar-ready infrastructure give you full visibility and control over your energy usage, helping you reduce waste and lower utility costs.

Connected Appliances & Entertainment

Enjoy seamless integration of smart TVs, streaming devices, multi-room audio systems, and home theatre setups. Control your entire entertainment ecosystem from one screen or let it adjust automatically based on your preferences and time of day.

IoT Integration & Cybersecurity

All connected devices are secured through encrypted networks, enterprise-grade firewalls, and continuous threat monitoring. Our cybersecurity layer ensures your smart home is not just intelligent — but impenetrable.

Complete Services & Solutions

As a full-service technology integrator, ICT And Cyber Technology delivers a comprehensive suite of solutions for homes, villas, offices, and commercial buildings across the UAE:

- ✓ IT Infrastructure — Active & Passive
- ✓ Infrastructure Security & Cybersecurity

Why Choose ICT & Cyber Technology?

✓ SIRA & Government Approved

Fully licensed by SIRA, Dubai Trade, EMAAR, NAKHEEL, and Trakhees. Every installation meets UAE regulatory standards.

✓ Wired, Wireless & Hybrid Solutions

We assess your space and recommend the most effective technology approach — regardless of property type, age, or layout.

✓ Premium Brands at Competitive Prices

We partner with Aqara, Lutron, KNX, Crestron, and Orvibo to deliver certified, warranty-backed hardware at transparent pricing.

✓ End-to-End Project Delivery

From initial site survey through installation, commissioning, and long-term after-sales support — we own every step.

✓ 24/7 Monitoring & Remote Support

Our engineers proactively monitor your systems around the clock and resolve issues — often before you even notice them.

✓ Scalable — Grow at Your Own Pace

Start with a single room and expand room by room, floor by floor — with zero disruption to your daily routine.

Our Brands & Achievements

We represent and install the world's most trusted smart technology brands, with a track record of excellence recognized across the industry:
